Mechanical was contracted for the MMSD Jones Island Wet Well Relining, to remove existing lining material and reline 9 waste treatment tanks.

Mechanical removed and replaced tank liners for 9 tanks and removed and replaced 15 12" and 10" flanged plug valves.

Unique to this job was performing a valve replacement that took just two days.

The original project schedule allowed for 20 months construction time frame. Mechanical pushed the schedule and successfully completed the job in just 9 months.
