DATA CENTERS

Customer: Lost Lake Utility

Contract Amount: \$949,900

Location: Dixon, IL

Mechanical Inc. contracted the work to upgrade to the Lost Lake Waste Water Treatment Plant in Dixon, IL completed in July 2010.

Mechanical, Inc. converted Lost Lake's old WWTP to a new sand filter treatment plant which required major excavation and dewatering.

Mechanical, Inc. combined efforts with both of our sister companies to make this job a success. Civil performed the excavation, dewatering and installation of the underground tanks. Conmat supplied all of the stone and sand filter media for the exterior sand filters.
