**Customer:** Belvidere Community School District #100  
**Contract Amount:** \$2,510,000  
**Location:** Belvidere, IL

Mechanical was the plumbing contractor for Belvidere School District's new elementary and high school completed in 2006 and 2007.

In both schools, we installed underground and above ground plumbing systems and natural gas systems. Included in each were a softener system, city water connection/meter, RPZ, two water heaters, and two circulating pumps. In addition, a compressor and dryer were installed in the high school.

Our team set fixtures in both schools, totaling 132 in the elementary and 300 in the high school. We also hooked up the kitchen equipment.

Our CAD department provided value by creating coordination drawings to synchronize our tasks with other mechanical, electrical, and plumbing trades.
