Customer: Mayslake Village
Contract Amount: \$1,627,454
Location: Plainfield, IL

Mechanical was the HVAC contractor for the Cedarlake Village project completed in 2006. The purpose of this project was to install hot water heating, refrigerant cooling, and gas piping in two large retirement community buildings.

We installed boilers, pumps, condensing units, AHU's, and MUA's along with associated pipe valves and fittings. Also, we provided hot water piping to fin tubes and fan coil units.

Work at Cedarlake Village required a very strict schedule. Immense teamwork was the key to our success.
