Mechanical played a key role in the water park addition for Illinois Valley YMCA in 2006.

The indoor aquatic center consists of a therapy pool, competition pool, and leisure pool. It also features a lazy river, large winding slide, and play area for children.

Customized options were installed in the therapy pool including a Badu Jet System, aqua aerobic area with underwater treadmills and bicycles, and multiple massage benches.

Mechanical's aquatic experience and dedication to safety led our team to success.
