Fax: (847) 973-1169

Customer: Mittal Steel
Contract Amount: \$1,000,000
Location: East Chicago, IN

Mechanical provided value for Mittal Steel in the quarterly repair outage work in September of 2006.

We supplied the customer with ironworkers, boilermakers, pipefitters, laborers, and operators. We fabricated and replaced 300 feet of ten foot ductwork. We also completed hydraulic piping, and installed 300 feet of twelve inch water piping and rubble shields.

We were given only three weeks from being awarded this job to completion. This concise time frame made it very challenging to fabricate and install the large amount of ductwork required. Our team worked a 24 hour around the clock schedule to meet its deadline. Because of our dedication and hard work, we pulled through with success.
