Phone: (847) 973-1123

Fax: (847) 973-1169

Customer: Carmel Park District

Contract Amount: \$3,947,890

Location: Carmel, IN

Mechanical played a key role in the construction of a new water park for the Carmel, Indiana Park District.

We were the prime contractor on the project, subcontracting concrete, excavation, and mechanical work. Since the customer was located near Indianapolis, we hired a local mechanical contractor and coordinated work between our subcontractors and the on site construction manager.

Our scope involved laying underground piping from the mechanical building to all pools, and installing new filters, pumps, and other mechanical building equipment.

The Monan Family Aquatic Center was opened in May 2007 and features a zero depth activity pool with interactive water features, lap pool, lazy river, two water slides, a kiddie pool, and a deep pool with plunge slide and diving board.
