Phone: (847) 973-1123

Fax: (847) 973-1169

Customer: Kiewit Energy

Contract Amount: \$1,237,000.00

Location: Rochelle, IL and Rensselaer, IN

Mechanical was awarded contracts to supply prefabricated stainless steel and carbon steel pipe spools for 2 new Ethanol plants being built in Rochelle, IL and Rensselaer, IN. These were labor only contracts as all material was supplied by the owner.

Our contract required us to maintain a fabrication schedule to facilitate both sites to keep up with their installation of pipe spools. We utilized the space in both our Freeport shop buildings, allowing us to keep up with the site schedule and not delay completion dates of either plant. The West shop was used strictly for fabricating carbon steel as to not contaminate the stainless steel which was fabricated in the East building. We maintained a shipping schedule of 1 to 2 truck loads with 100 to 160 fabricated pipe spools per site per week. Shipments started in April 2006, continued through the summer, and ended with the final shipment in October 2006.
