Customer: Wal-Mart Stores, Inc.

Contract Amount: \$788,502

Location: Rockton, IL

Mechanical was the HVAC contractor for the new Wal-Mart Supercenter located in Rockton, IL.

Our team installed a new HVAC system including installation of condenser water supply and return piping. We supplied and installed three Marley Cooling Towers, and set owner supplied RTU's and ATU's. We subcontracted all sheet metal and insulation work.

Wal-Mart Stores, Inc. supplied the majority of equipment for the project, which is rarely done. They provided a "pumphouse," housing all pumps, boilers, valving, and specialties. This was set by us as well.
